LONGSHADOW®

Since 1994, we have been committed to elegance and lasting American made value. Beautiful Longshadow dry cast limestone planters and garden ornaments are designed and hand crafted in our rural Southern Illinois factory, in the midst of Longshadow Gardens.

We named Longshadow Gardens after the long shadows cast by tall Oaks, Hackberries and Sassafras across our hill top meadow. Twenty years ago, we purchased a neglected farm with breathtaking views, grottoes, waterfalls and limestone bluffs.

After cleaning away the weeds, we planted Boxwood allees, Yew, Dawn Redwood, Bald Cypress, Roses, Prairie and ornamental grasses, rows of Lavender and billows of Nepeta. A tangle of old Hydrangeas was replanted into a collection to which we add new cultivars every year.

Garden ornaments are nestled as focal points in evocative settings. Mown grass paths and shaded walks lead through a carpet of woodland treasures including spring ephemerals, wild Orchids, Spicebush, Witchhazel, Redbud, Dogwood, Paw Paw, Persimmon and more.

We support our passion for gardening by designing and hand crafting Longshadow dry cast limestone planters and garden ornaments in buildings that blend into our rural surroundings. Our skilled team of local artisans take pride in designing, modeling, casting, finishing and shipping the finest garden ornaments and planters in the world.

Our motto is “Factory in a Garden.” In our factory we create the finest garden ornaments and planters in the world, and, in our garden, we strive to attain fleeting moments of memorable beauty.

We invite gardeners and design professionals to visit.
